Christian Jay P. De La Cruz

Software Engineer

Naga City, Camarines Sur, Bicol | cjdelacruz267@gmail.com | 09516909596

PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience delivering, maintaining and improving live enterprise web and hybrid mobile applications. Experienced in investigating and resolving support tickets through root-cause analysis, delivering change requests and bug fixes, and deploying updates via Azure DevOps. Strong in HTML, CSS, JavaScript/TypeScript, and Angular, and I've built full-stack applications with C# and .NET in personal projects. Known for staying calm during production incidents, writing clear documentation for recurring fixes, and explaining technical issues to non-technical stakeholders. Eager to grow into a full-stack developer role.

EXPERIENCE

Accenture — Custom Software Engineer Associate *September 2021 – September 2026*

Application Support Engineer / ***Front-End Developer***

- Investigated and resolved support tickets for live enterprise web and hybrid mobile applications, reproducing issues, performing root-cause analysis, and validating fixes before production release.
- Delivered change requests and bug fixes on the supported applications (UI tweaks, component updates, API integration fixes) using Angular, TypeScript, HTML5, CSS3/SCSS, and Ionic.
- Managed tickets and defects in Azure DevOps Boards and ServiceNow, working with developers and QA to prioritize and resolve issues.
- Deployed updates and automated mobile build distribution using Azure Pipelines and Firebase CLI, speeding up delivery to testers.
- Modernized the supported applications by upgrading Angular v15 to v20 and Ionic v4 to v8, improving maintainability and performance.
- Coordinated the resolution of a production outage caused by an expired SSL certificate, restoring access and setting up preventive monitoring.
- Wrote technical documentation and troubleshooting guides for recurring issues, improving support efficiency.
- Optimized performance and ensured cross-browser and mobile compatibility through refactoring, lazy loading, and responsive layouts

Power Apps Developer

- Designed and deployed business applications using Microsoft Power Apps, integrated with SharePoint/SQL Server, and automated workflows with Power Automate to streamline internal processes.
- Collaborated with stakeholders to gather requirements and translate them into low-code solutions, ensuring rapid delivery and adaptability to evolving business needs.

Collaboration & Leadership

- Led a hybrid mobile app project, providing knowledge transfer, technical guidance, and training to teammates.
- Collaborated with designers, QA engineers, product owners, and developers throughout the software development lifecycle.

EDUCATION

University of Nueva Caceres — Bachelor of Science in Information Technology *June 2021*

SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, Ionic, Responsive Design, Bootstrap, Tailwind

Backend & Database: C#, .NET Core (Web API), SQL Server, API Integration

Debugging & Support: Root-Cause Analysis, Defect Resolution, Azure DevOps, ServiceNow

Cloud & Tools: AWS, Azure, Firebase, Git, Postman, Visual Studio, VS Code

Low-Code Platforms: Microsoft Power Apps, Power Automate

AI Tools: GitHub Copilot, Claude Code, ChatGPT

Collaboration: Agile Teams, Code Reviews, Cross-Functional Communication

CERTIFICATIONS

- Scrum Foundation (2022)
- AWS Cloud Practitioner (2025)
- AWS Cloud Quest: Generative AI Practitioner Training (2026)

PROFESSIONAL DEVELOPMENT

- Cloud Computing
- Backend Development (.NET, Node.js & SQL)
- AI & Automation
