EXPERIENCE

Accenture

September 21, 2021 – Present

Custom Software Engineer Associate

- **Front-End Developer (Angular & Ionic)**
  - Developed responsive web and hybrid mobile applications using Angular, TypeScript, HTML5, CSS3, SCSS, and Ionic Framework.
  - Built reusable UI components and integrated RESTful APIs to deliver scalable business applications.
  - Modernized enterprise applications by upgrading Angular v15 to Angular v20 and Ionic v4 to Ionic v8, improving maintainability and performance.
  - Collaborated closely with UI/UX designers, QA engineers, and backend developers to deliver high-quality user experiences.
  - Optimized frontend performance through code refactoring, lazy loading, and responsive layouts.
  - Ensured cross-browser compatibility and mobile responsiveness across enterprise applications.

- **Application Support Engineer (Angular & Ionic)**
  - Diagnosed and resolved frontend defects by reproducing issues, performing root-cause analysis, and validating fixes before production releases.
  - Used Azure DevOps and ServiceNow to manage bugs, collaborate with developers, and maintain application stability.
  - Produced technical documentation and troubleshooting guides to improve development and support efficiency.
  - Implemented mobile build distribution automation using Azure Pipelines and Firebase CLI, enabling faster and more efficient delivery of builds to testers

- **Power Apps Developer**
  - Designed and deployed business applications using Microsoft Power Apps, integrated with SharePoint/SQL Server, and automated workflows with Power Automate to streamline internal processes.
  - Collaborated with stakeholders to gather requirements and translate them into low-code solutions, ensuring rapid delivery and adaptability to evolving business needs.

- **Collaboration & Leadership**
  - Led a hybrid mobile app project, providing knowledge transfer, technical guidance, and training to teammates.
  - Collaborated with designers, QA engineers, product owners, and developers throughout the software development lifecycle.

EDUCATION

University of Nueva Caceres

June 2021

- *Bachelor of Science in Information Technology*

SKILLS

- **Frontend:** Angular, TypeScript, HTML5, CSS3, Ionic, Responsive Design, Bootstrap, Tailwind
- **Backend & Database:** .NET Core, SQL Server, API integration, unit testing
- **Debugging & Support:** Root-cause analysis, defect resolution, Azure DevOps, ServiceNow
- **Cloud & Tools:** AWS, Azure, Firebase, Git, Postman, Visual Studio, VS Code
- **Low-Code Platforms:** Microsoft Power Apps, Power Automate
- **AI Tools:** GitHub Copilot, Claude Code, ChatGPT
- **Collaboration:** Agile teams, code reviews, cross-functional communication

OTHER

Certifications

- Scrum Foundation (2022)
- AWS Cloud Practitioner (2025)
- AWS Cloud Quest: Generative AI Practitioner Training (2026)

Professional Development

- Cloud computing
- Backend Development (.Net, node.js & SQL)
- AI & Automation
